2. Best in Quality, Service & Price
3. India's one of the fastest growing Solar EPC Solutions provider in rooftop installations for residential, commercial and industrial structures

*as per guidelines of TSREDCO and MNRE

We would like to introduce ourselves as guardians of environment and help the earth to grow greener by bringing awareness on potential of sun for generating power & heat and thereby bring positive impact in society by making every (domestic & commercial) building Zero Grid Energy for Empowering Growth & Self sustenance. Our timely actions will make the consequences of global warming manageable; what is at stake is the half of ecosystem, wildlife, and importantly the world we leave for our children. Our geographical location gives us the

opportunity to harness the solar power to its optimum levels. We have a unique confluence., we are a place with lot of sunshine, we are tech savy community, we have high electricity cost, highly populated with higher demand of electricity.

We would like you to join our efforts to bring equilibrium in the environment, we are looking forward to walk with you to shape a greener/cleaner society and inspire millions around us to Go Solar Go Green, since Green Energy is for all.
